

Operating Room Equipment

A complete category overview with dedicated product imagery, technical data and configuration options.

Anesthesia Workstation

Integrated anesthesia platform for controlled gas delivery and patient ventilation.

Technical Data

EQUIPMENT CLASS

Advanced anesthesia workstation

INTEGRATION

Anesthesia machine and ventilator platform

CONFIGURATION

Mobile workstation pictured

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Ventilation and breathing-circuit integration
- 02 Gas delivery and monitoring functions
- 03 Mobile operating-room configuration

Modular Operating Room Package

A coordinated surgical-room environment integrating architecture and equipment.

Technical Data

ROOM ENVELOPE

Antibacterial modular glass wall system

CEILING SERVICES

Ceiling pendant and ventilation ducts

CORE EQUIPMENT

Table, cautery, monitor and anesthesia machine

LIGHTING

LED surgical light and background lighting

ROOM CONTROLS

Negatoscope and digital clock

SURFACE

Cleanable and hospital-detergent resistant

Configuration Scope

- 01 Modular wall and ceiling systems
- 02 Equipment, lighting and service coordination
- 03 Project-specific room planning

Electrosurgical Generator

High-frequency surgical energy platform for open and minimally invasive procedures.

Technical Data

EQUIPMENT CLASS

High-frequency electrosurgical generator

PROCEDURE SCOPE

Open and minimally invasive surgery

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Cut, coagulation and bipolar modes
- 02 Configurable power delivery
- 03 Footswitch and accessory connectivity

Advanced Electrosurgery And Vessel Sealing

Touch-controlled electrosurgery family supporting demanding surgical workflows.

Technical Data

INTERFACE

Touchscreen platform listed

CORE USE

Open surgery and minimally invasive surgery

ENDOSCOPIC USE

Endoscopy, resectoscopy and polypectomy

ADVANCED MODES

Vessel sealing and argon plasma coagulation

UROLOGY

TUR application listed

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Monopolar and bipolar energy modes
- 02 Vessel-sealing configuration available
- 03 Procedure-focused accessory portfolio

Ophthalmic Surgery Platform

Integrated console family for cataract and vitreoretinal procedures.

Technical Data
PROCEDURE FAMILY Phaco and vitrectomy
EQUIPMENT CLASS Ophthalmic surgery console
CONFIGURATION Console, foot control and accessories pictured
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 Procedure-specific console configurations
02 Foot control and fluid-management accessories
03 Mobile workstation format

Product images are illustrative samples only.

Laparoscopy Tower

Imaging, insufflation and energy equipment assembled for minimally invasive surgery.

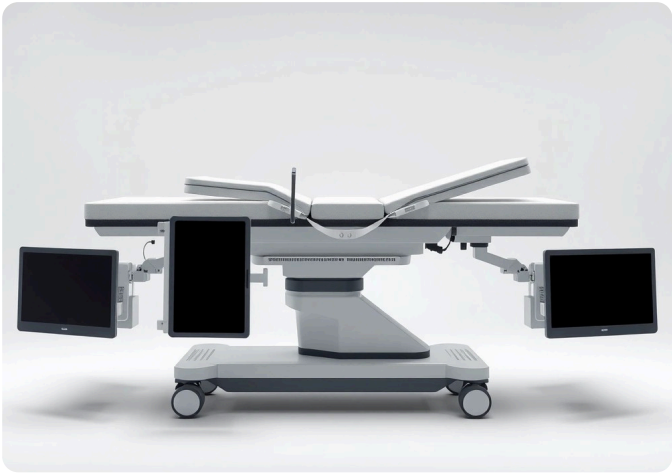

Technical Data
IMAGING PLATFORM Laparoscopy tower
PROCEDURE SCOPE Laparoscopy, arthroscopy and gynecology
ADDITIONAL SCOPE Urology and ENT
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 High-definition visualization
02 Modular tower architecture
03 Procedure-specific scopes and hand instruments

Product images are illustrative samples only.

Operating Table

Mobile surgical table platform with configurable positioning and accessories.

Technical Data

DRIVE OPTIONS

Electromechanical, electrohydraulic and manual

PLATFORM

Multi-section operating table pictured

MOBILITY

Mobile base pictured

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Multi-section tabletop
- 02 Procedure-specific positioning accessories
- 03 Powered and manual configuration options

Led Surgical Light

Ceiling-mounted illumination designed for clear surgical-field visibility.

Technical Data
LIGHT SOURCE
LED
MOUNTING Ceiling-mounted articulated system pictured
CONFIGURATION Twin-head option pictured
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 Multi-head configurations
02 Adjustable intensity and positioning
03 Low-profile articulated suspension

Product images are illustrative samples only.

Plasma Ablation Platform

Low-temperature bipolar radiofrequency platform for precise tissue treatment.

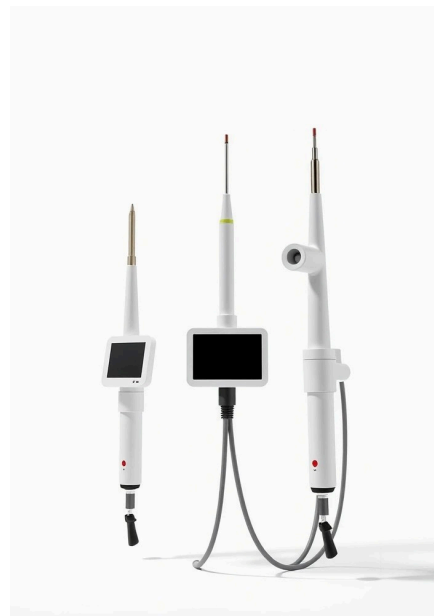

Technical Data
EQUIPMENT CLASS Argon plasma coagulation unit
ENERGY PLATFORM Electrosurgical plasma treatment
CONFIGURATION Generator and controls pictured
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 Controlled plasma field
02 Compact generator and foot control
03 Specialized handpieces for target procedures

Product images are illustrative samples only.

Surgical Handpieces And Instruments

Procedure-specific instruments supporting ablation and electrosurgical systems.

Technical Data

ENERGY

Bipolar radiofrequency through saline medium

TISSUE EFFECT

Controlled stable plasma field

THERMAL PROFILE

Low relative temperature method

INSTRUMENT TYPES

Laparoscopic and open sealer/dividers

JAW OPTIONS

Fenestrated, Maryland, blunt and dolphin

Configuration Scope

- 01 Rigid and flexible handpiece options
- 02 Single-use and reusable configurations
- 03 Accessory sets organized by procedure

Medical Suction And Flow Control

Point-of-use vacuum, oxygen and flow-control hardware for operating rooms.

Technical Data

EQUIPMENT FAMILY

Oxygen-therapy and vacuum devices

FORMATS PICTURED

Flowmeters, regulators and suction control

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Vacuum regulator and suction jar options
- 02 Oxygen flowmeter configurations
- 03 Wall and rail mounting compatibility

Surgical Suction And Infusion Platform

Compact devices for controlled fluid delivery and surgical suction.

Technical Data
THERAPY SYSTEMS Infusion and inhalation therapy
SUCTION Medical suction systems
ENERGY Electrosurgical systems listed
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 Portable and trolley-mounted suction
02 Syringe and infusion pump options
03 Accessory configurations for procedural use

Product images are illustrative samples only.

Balloon Inflation Device

Handheld pressure-control device for catheter-based intervention workflows.

Technical Data
EQUIPMENT CLASS Balloon inflation device
RELATED PRODUCT Disposable laryngoscope blade listed
DATA AVAILABILITY Full specifications available on request.

Configuration Scope
01 Controlled inflation and deflation
02 Integrated pressure indication
03 Single-use fluid pathway options

Product images are illustrative samples only.

Stainless Surgical Furniture

Mobile carts, cabinets and work surfaces configured for controlled clinical areas.

Technical Data

CONSTRUCTION

Hospital stainless steel

MOBILE PRODUCTS

Trolleys and IV stands

STORAGE

Cupboards, cabinets and shelves

WORK SURFACES

Desks and clinical workstations

PROCEDURE FURNITURE

Operating-room surgery beds listed

Configuration Scope

- 01 Stainless-steel construction
- 02 Drawer, shelf and cabinet options
- 03 Mobile locking-caster formats

Operating-Room Imaging Suite

Ceiling and mobile imaging configurations for procedure guidance.

Technical Data

FIXED IMAGING

Digital radiology room system

MOBILE IMAGING

Mobile digital radiography

PROCEDURE GUIDANCE

C-arm

DATA AVAILABILITY

Full specifications available on request.

Configuration Scope

- 01 Digital image acquisition
- 02 Table and detector integration
- 03 Room-scale and mobile configuration options
